## CRYO-SERVICES—NOW WITH 3 LOGISTICS POSSIBILITIES

To better serve client needs Cryogenetics is expanding its service range with the following options:

- ◆ Sending your mature zebrafish males to Cryogenetics in Woburn, MA.
- ◆ Cryogenetics specialists conducting cryo-services at your local lab worldwide.
- ◆ Cryogenetics team members or individual lab technicians collecting zebrafish sperm for overnight transport to Woburn, MA.

OvaCoat

## NEW IVF KIT—"ALL IN ONE BOX" FOR SUCCESSFUL IVF

To make it easier for staff members to successfully perform IVF, Cryogenetics can supply a complete IVF kit to zebrafish labs.

This kit has all the components and protocols necessary to perform IVF with fresh or frozen sperm samples, including **AquaBoost™ OvaCoat**, our product for coating eggs to keep them viable for up to 30 minutes. This allows enough time to collect multiple clutches of eggs, prepare sperm samples and perform controlled IVF.

Storage of frozen straws

## WE KEEP TRACK OF ALL SAMPLES THROUGH A TAILORED DATABASE—YOU CAN ACCESS IT TOO

All production records and relevant statistics are kept in a **CORE-LIMS** database system.

The LIMS system has a web interface and reading access that can be set up for interested clients.

This allows a total overview of your samples stored at Cryogenetics.
